# Laundry room rules

You must do the following everytime you use the laundry room:

- Wipe the laundry machines off and ensure that no washing powder or fabric softener is left, (*please note that your neighbour washing after you may be allergic to your washing powder or fabric softener*). We recommend using liquid detergent rather than powder.
- Wipe the tumble drier off and clean the filter.
- Clean the filter in the ceiling of the drying cupboard and the cupboard floor as well.
- Wipe the mangle off. Be sure to leave the mangle cloth completely in the outer position. Otherwise it could be damaged due to damp.
- Wipe the tables off.
- After every laundry session, sweep and wash the floor.

## **Washing times**

Every day of the week from 07:00 – 21:00.

In the last washing session from 17:00 – 21:00 you are allowed to use the tumble drier and the drying cupboard until 22:00. After that time you are not allowed to use any machine.

## **Error report**

Please call the caretaker, mobile 0762 15 43 26, if you find any machine out of order or any other damage in the laundry room.
